Subject: Discounted Rates for the GlobalChem Conference & Exhibition Expire Soon

Reduced Registration Rates Expire on January 9, 2017. Take Advantage by Registering Early!

For over 30 years, [GlobalChem](#) has been the chemical industry's premier policy and regulatory conference of its kind. Each year, this annual gathering of industry professionals offers a valuable opportunity to review key developments in the global chemicals management arena while looking ahead to some of the most pressing issues the industry faces.

The new year shifts the focus of [GlobalChem](#) to the recently signed **Frank R. Lautenberg Chemical Safety for the 21st Century Act (LCSA)**. The passing of this watershed legislation means that the 2017 conference is even more important as a venue for industry and EPA leaders to share insights and priorities about the new law's implementation.

[GlobalChem](#) 2017 will include discussions about how the industry can support the U.S. Environmental Protection Agency's efforts to effectively and efficiently implement key provisions of the LCSA; how the new law have a meaningful impact on consumer and marketplace confidence in the safety of chemicals; and, how the LCSA can serve as a risk-based model for chemical regulation internationally.

2017 Agenda Topic Highlights:

- LCSA Implementation
- Risk-Based Chemical Regulation
- Sustainability
- Chemical Management in the Value Chain
- REACH 2018
- Canadian Chemical Management Plan (CMP)
- And much, much more!

Optional Workshop on LCSA & International Fundamentals

[GlobalChem's](#) annual Fundamentals Workshop provides a unique educational opportunity for conference attendees. For 2017, the workshop will cover the differences between the old Toxic Substances Control Act (TSCA) and the new LCSA.

The various programs discussed in the morning will include Inventory Reset; New Chemicals and Significant New Uses; Confidential Business Information (CBI); PMN Preparation; and Risk Assessment; among others. The afternoon of the workshop aims to cover international topics such as EU REACH; Korea REACH; China NCN; GHS Fundamentals; and OSHA Enforcement.

Register Now to Save \$250*!

Save on registration fees by registering early for special pricing.

*Special rates apply to standard ACC member & non-member fees.

Conference Host Hotel

GlobalChem is proud to return to Washington, DC and call the OMNI Shoreham hotel its host for 2017.

[Click here for more information](#), including ACC's special room rates.

GlobalChem Exhibition

GlobalChem isn't just an educational opportunity; it's also a great forum for you to meet representatives from companies that already understand your business.

The workshop is ideal for newcomers to the chemical regulations arena as well as seasoned veterans looking for a refresh of what has and has not changed in TSCA and key international issues.
